➡️ Profile (optional, usually not necessary)

Sum up what you have to offer to a potential employer in 3-5 sentences. For example:
Upcoming XYZ University graduate with a strong academic background in IT combined with excellent internship experience as a software engineer. Recognized for technical troubleshooting skills. Quickly learn and master new technology; equally successful in both team and self-directed settings.

➡️ Education

start date – end date (or expected grad date)

Austin Coding Academy
Full Stack Web Development

start date – end date (or expected grad date)

Stephen F. Austin State University
Master's/Bachelor's/... degree in ...
Leading activities: ... (optional)

➡️ Technical Skills

In order to avoid a lengthy, disorganized list, divide it up into appropriate categories. For instance:

- **Languages:** Ruby, Java, JavaScript, ...
- **Frameworks & Libraries:** Ruby on Rails 4/5, AngularJS, React, ...
- **DevOps:** Unix/Linux, Heroku, Git, Sidekiq, ...
- **Databases:** PostgreSQL, MySQL, ...

➡️ Projects (in lieu of developer work experience, this is where you can shine)

Briefly describe the projects (products) you may have worked on or done "for fun."

Provide a link to the website/App Store/Play Market and explain your role. If possible, mention some positive metrics (e.g., user sign-ups, the number of (app) downloads, etc.). If there several iterations, mention this as well.

➡️ Work Experience (keep descriptions of irrelevant experience very short, expand on technical experience only)

Reimbursements Clerk | TDCAA, Austin, TX Country

06/2017 – present

Describe briefly what this project/product is about, what problem(s) it helps to solve. If possible, mention some interesting facts (the number of users, awards, big-name clients, etc.).
- Your role/results/achievements
- Highlight **your accomplishments** and where you've succeeded.
- Start your bullet points with **action verbs in the past tense** (Built, Designed, Developed, Increased, Debugged, Reduced, etc.).
- **Quantify** your accomplishments, as much as possible (improved ... by 40%, reduced ... time by 50%, etc.).
- Don't include too many details. Per position, **no more than 8 bullets**. The ideal bullet length is **one or two lines**.
- Your role/results/achievements

 Tech stack: JavaScript, Angular, Webpack, ...

➡️ Certifications

List relevant online courses (Udemy, Coursera, etc.) and/or certification programs.

➡️ Other (optional, could be "volunteering" or "hobbies" or "awards/recognition")

Your extra activities, conferences, awards if they relate to the position you're applying for.
